# Lesson 11_Gadgets on Windows 7 Desktop
Add gadgets:

1. Right click at blank spot on desktop. You will see the following menu box. Look for Gadgets.

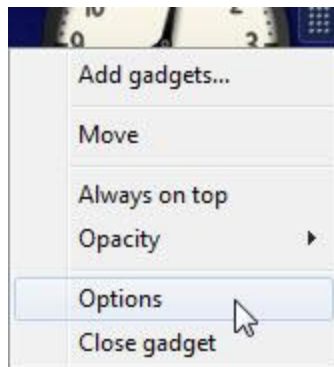

2. Click at Gadgets. Look for **Clock**.

3. Right Click on **Clock**. Look for **Add**. Click on **Add**. An analogue clock should show up at right upper corner of the desktop.
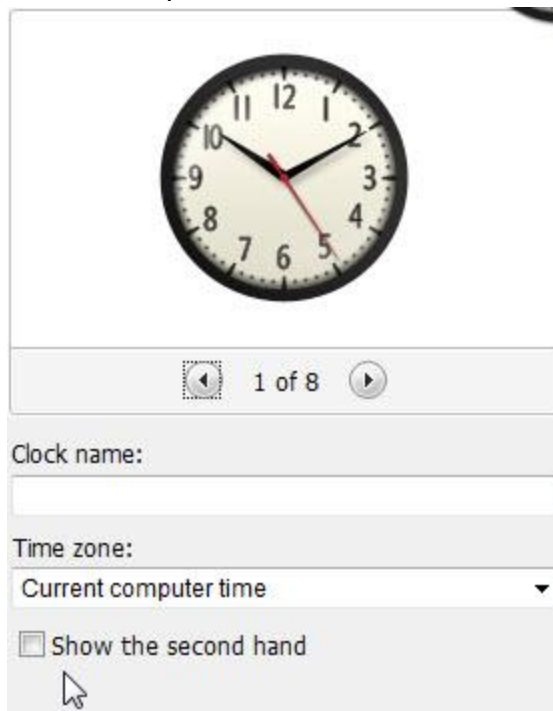

Lesson 11_Gadgets on Windows 7 Desktop

4. If you like the clock showing its "second hand", follow these steps:
   i. Right click at the clock. Look for "Options".

   ii. Click on "Options".

   iii. Check **Show the second hand**. Then click **OK**. You should see the clock has a second hand now.
   iv. In the box shown at step ii, you can choose different appearance of the clock if you like to do so.
   v.   You can choose more gadgets shown in step 2 by following the same procedure.

Please add **Calendar** and **CPU Meter** as your home work.

Lesson 11_Gadgets on Windows 7 Desktop
